Note:

DDR2 1066MHz DIMMs work only on the BLACK slots for one DIMM per channel. Ensure to install the DDR2 1066MHz DIMMs ONLY on the BLACK slots!

A*: Supports one module inserted in any slot as Single-channel memory configuration

B*: Supports one pair of modules inserted into eithor the blue slots or the black slots as one pair of Dual-channel memory configuration C*: Supports 4 modules inserted into both the blue and black slots as two pairs of Dual-channel memory configuration

- A*: Supports one module inserted in any slot as Single-channel memory configuration
 B*: Supports one pair of modules inserted into eithor the blue slots or the black slots as one pair of Dual-channel memory configuration
 C*: Supports 4 modules inserted into both the blue and black slots as two pairs of Dual-channel memory configuration
